

WIRE HARNESSSES & CONTROL PANELS

Control panels wired and ready to install

Custom build boards for repeatable quality.

Abrasion protection for harsh applications.

What We Build:

- Custom harnesses and control panels for automotive, industrial, medical and more
- Wire Options - 8-22 gauge with multiple colors and jacket materials, including PVC (GXL and TXL), silicone and TPE.
- Connectors Supported Include: Bosch, Delphi/Aptiv, Deutsch, Molex and TE/AMP.
- Custom testing boards or mating harnesses for rapid testing.
- Complex harnesses (100+ circuits) to simple jumpers.
- Quality Assurance and Testing - every harness is 100% continuity tested.
- Scalable from prototypes and warranty to production volumes.
